** ARGENTINA. 28485 USB, Oct 20 at 2158, LU3HV calling CQDX, Kalinsky(?), virtually the OSOB, not even beacons. QRZ.com: ``LU3HV Argentina flag Argentina, JORGE OMAR HERNANDEZ, ESQUIU 1024, RIO CUARTO (CBA) C.P. 5800 5800, Argentina`` (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Friday April 17 at 2326, tune-in to RAE via WRMI, on portable ATS-909 with internal wire antenna due to heavy storms in our area, causing lots of HSNL. Mostly music at first, then Portuguese, really! and soon starting DX program ``DX.com.ar`` as I try to copy the details. Soon recognize as exactly the same show I monitored previously Tue Apr 7, including reference to an A24 schedule, until 2340. Never mind (Glenn Hauser, OK, WOR)

** ARGENTINA [non]. 9455, Tue Apr 21 at 2306, RAE via WRMI, tuned in late, but another DX program in Portuguese. Some items seem familiar, but different from the last two airings. Continuous tango music in background. 8 FM/SW frequencies available in certain parts of Perú. Then long item about a ``Rádio Mulher`` in Guinea-Bissau – at first thought they said ``Molière``! till it was obviously about women, also expressed in Spanish ``Mujer``. It`s in Bafatá, and something from Sevilla, Spain is involved in the project. WHAT`S THE FREQUENCY, KENNETH? Never heard any mentioned, but it operates 8 hours per day. Nothing about it on page 266 of WRTH 2026, but stations less than 0.25 kW are admittedly ignored. Or maybe it`s ``radio`` without a transmitter?

I then searched out some press about this, going back to 2021y:
https://www.rtve.es/play/audios/en-primera-persona/primera-persona-radio-mujer-bafata-mas-radio/16284462/
https://elradioescucha.net/2025/04/27/radio-mulher-empoderando-a-mujeres-en-guinea-bissau/
I finally spot a logo showing 92.7 but in Spanish as Radio Mujer so unlikely the G-B one. Searches tend to mix up Guinea Ecuatorial stuff: maybe they have one too. Credit Arnaldo Slaen at 2314. Then something about centenary of fluminense radio, i.e. Rio de Janeiro, not about the sillyballgame club. 2318 outro `Atualidade DX` program, multi-lingual RAE IDs (Glenn Hauser, OK, WOR)

** BELIZE. 28257+ CW, Apr 22 at 2214, EEEEEEEEEE VVV DE V31HQ/B. The keying sounds ``clunky`` and less than 28258.0. WGB list: ``28258.0 V31HQ/B – Belmopan BLZ EK57nf – #0/1 (26 Apr 2025) Note: VVV ID + grid + E × 10 – Pwr 10w`` – I also had JBA beacons on 28207 and 28201, a couple unID phones and nothing else on 10m; tho 27 MHz CB was hopping with skip (Glenn Hauser, OK, WOR)

** BRAZIL. 15145, Apr 20 at 2208 in routine bandscan, surprised to hear Brasuguese here, weak S4/S7 direct, M&W discussion. Nothing listed now on 15145. RHC should be in BB at this hour somewhere but 15140 is off and this is not their style. Then I check various remotes which aren`t getting it much better, but soon find that it`s // 11780 RNA, and 22-23 is `A Voz do Brasil` hour which most/all stations have to carry. Does not work out as a harmonic or spur; and the only ZY known on 19m, Inconfidência, is still on its signature off-frequency 15188.88 into Bonaire. Can`t get a ToH ID at 2300 but into music and more talk about futebol at 2319. The W4BF Melbourne FL is getting it best S9/+10 altho with occasional QRhaM overload. Is correctly calibrated vs WWV and this one is on 15144.982. At 2330 R. Nacional sung ID and more talk still // 11780, so apparently Brasília itself. 2355 a bit of music; Apr 21 at 0001 full ID for R. Nacional on 980, 6180, 11780 and FM, but NOT THIS frequency! Shhh. By 0010 really fading down and with QRMusic, maybe overload or part of programming. Perhaps this will also emit token English at 0150. BTW there is no BRAZIL entry in WRTH 2026 International pages; the few SW stations are buried in the National sexion on page 132 between AM and huge FM

listings. Replies in the WOR iogroup:

** BRAZIL. 15145, April 21 at 0146, further monitoring of new RNA frequency, into W4BF remote in FL. It`s JBA but fades up a bit to a noisy S9. At 0148, token English already underway // 11780; has some CCI which might be overload at the remote? About a member of an Amazonian ethnic group, Joana Ticuma? singing national anthem in her language, and a bit of that music, outro already at 0153. By 0202, 15145, 11780 and 6180 are all off. Nothing heard on 15145 around 1450, but never a good time for Brasil, even 11780 if on. At 1605 into local ``Brasila`` SDR, 11780 booms, but no 6180 or 15145; and 980 is not //. Stephen Luce replies:

Glenn, regarding RNA on 15145: My first thought was this might be a reactivation of the transmitter used for DRM tests on 25 meters a few years ago. I assume that unit is AM compatible. Nothing heard on 15145 at a check of the Brasília and São Paulo Kiwi SDRs around 1400 UT April 21. RNA heard on 11780 but not 6180. Inconfidência on 6010 and 15190 while RVM is on 5940 and 11750 but missing from 9665. Rádio Nove de Julho not heard on approx 9819 despite weak display on the waterfall on the SP SDR. This is via Kashgar, which is further and norther than western Europe but better than signals from there, if any. Also 13740 S5/S7 songs at 0136 but sounds as loud as 13640 and is also Kashgar

Also confirmed Saturday April 18 at 1931 on SW Radio Gold, Germany, 6160.001+, S9 and 3975.002, S9+5/15 into UTwente.

Attempting to confirm Sat Apr 18 at 1930v on WA0RCR, 1860 AM, MO, the few SDRs in the area are getting daytime noise, but maybe a trace of my voice circa 2006 on N9AZZ IL.

Also confirmed Saturday April 18 at 2000 on WRN Europe stream.

Also confirmed Saturday April 18 at 2100 on WRMI 9395, S9+20 into Georgia SDR.

Also confirmed Saturday April 18 at 2230 on WRMI 17790, VG S9+15 into Bonaire SDR, but JBA S7/S8 on 15770, aimed away. 15770 no better into Maryland SDR, JBA S3/S5.

Also confirmed Sunday April 19 at 1030 on WRN via WRMI 9395, S9+20/25 direct, but 7780 confirmed last week is still not on air tonight. 7730 however is on and JBA S6, seems like my voice with ECSS assist.

** U S A [and non]. WORLD OF RADIO 2343 monitoring: confirmed Sunday April 19 at 2017 the 2000 repeat on IRRS SW via AM Italia, 1322.995, S9+10 but noisy into Noale SDR.

Also confirmed the 2000 Sunday April 19 webcast by WRN Europe stream.

Also confirmed Sunday April 19 at 2133 the 2130 on SW Radio Gold, Germany, 3975.001, S9+10/15 into UTwente.

Also confirmed Sunday April 19 at 2300 on WRMI 9395, S9+20 into one Georgia SDR, but cutting off and on; other Athens SDR running silently but not muted; stays on Knoxville SDR at S9+10/20.

Also confirmed Sunday April 19 at 2330 on WRMI 9455, S9+10/20 into Knoxville SDR.

Also confirmed UT Monday April 20 at 0030 on WRMI 7780, S9/+10 into Knoxville SDR; following something in Spanish cut off for Allen Graham ID, then WOR.

Also confirmed on Area 51 webcast only, UT Monday April 20 from 0302, as soon as DJ says `gotta split`, having run already 2 minutes past 5130 -92 Hz = 5129.908 into VT SDR starting s/off. Said something about ``Jimmy Nights``? and 4/20 day becoming something else. At 0257 tune-in someone with a heavy Cockney? accent.

Also confirmed Monday April 20 at *1945 on SW Radio Gold, Germany, 6160.001+. I tuned in at 1926 to both that and 3975.002+, both S9/+10 into UTwente, but just as the German DX report was ending at 1929* both dumped off the air! Recorded next semihour while I was out, and 6160 vs RTTYditty on plus side, evitable by bandwidth <8 kHz, finally came back on about 1945 during WOR. Power failure? Next:

** U S A [and non]. WORLD OF RADIO 2343 monitoring: re SW Radio Gold ``dumping off the air at 1929`` when WOR was about to play, Andy at station replies: ``Twente is NOT a favourite for us. You should check other SDRs further away. The reason why both signals were suddenly gone on Twente is the operator PA3FWM changed the antenna. It was plugged off for some minutes ;-) Cheers, Andy``

Confirmed UT Tuesday April 21 at 0330 on WRMI 7780, S9/+10 into Georgia SDR.

Also confirmed Tuesday April 21 at 1303 the 1300 on WRMI 9955, JBA S7/S8.

Not confirmed Tuesday April 21 at 1410 the 1400 on WRMI 9955, NO signal direct, nor into several SDRs, in Bonaire, FL, MA, GA, TN, so it`s off the air. Propagation is degraded, but 9395 can still be detected on some of them. WWV reported at 15, K-index 3.33, after minor G1 geomag storms. However, WOR *is* on the WRMI stream. Next:

** U S A [and non]. WORLD OF RADIO 2343 monitoring: confirmed Tuesday April 21 at 2234 the 2230 on WRMI 9955, S9+35/40 into Georgia SDR.

Also confirmed Tuesday April 21 at 2335 the 2330 on SW Radio Gold, Germany, 3975, S9+ into Barney`s Bedford UK SDR, better than JBA UTwente.

Also confirmed UT Wednesday April 22 at 0030 on WRMI 9395, S9+20/27 into Georgia SDR.

Also confirmed Wednesday April 22 at 1930 on SW Radio Gold, Germany, 3975.001+, S8/9+10 into UTwente; and 6160 JBA vs RTTYditty on plus side. Why doesn`t ITU or something get after that ~6165 INTRUDER in broadcast band?

Also confirmed Wednesday April 22 at 2100 on WBCQ 7490 -67 Hz = 7489.933, S8/9+5 into Maryland SDR.

Also confirmed Wednesday Apri 22 at 2332 the 2330 on WRMI 9395, S9+5/10 into Maryland SDR. Next:

** U S A. 5920, Apr 16 at 0636, WTWW S9+45 but with horrible humroar. At 1459, 9930 with contact info for TOMBS, distorted audio but clear when switching to TOMBS (Glenn Hauser, OK, WOR)

** U S A. 9930, Apr 22 at 1445, WTWW TOMBS hugely overmodulated and distorted, spreading out more than 30 kHz above and below, QRMing 9955 WRMI; spur peaks around 9868, 9887, 9895, 9920, but worst about 9907. Perhaps making adjustments; off at next chex 1528 & 1644, whew. On, at 1850, seems OK now (Glenn Hauser, OK, WOR)

** U S A. (7490 webcast), April 18 at 0000 UT: `AAAWWW` starts with `WTO` theme on WBCQ, and interjexions: ``Hi ho, hi ho``, and ``tickling the grids is what we do...`` so it`s a rerun of the March 14 show, q.v. Never mind (Glenn Hauser, OK, WOR)

** U S A. 5800, Apr 19 at 0004, S9/+10 of dead air from WRMI, or is it JBM? Xmtr grid shows WRMI-9 only at 01-04 UT; but System E, mostly WRN, claims it also at 00-01 and 04-11! (Glenn Hauser, OK, WOR)

** U S A. 5850, April 20 at 0607, this WRMI is OFF, strange; while 5950 is ON S9/+10 direct but open carrier (Glenn Hauser, OK, WOR)

** U S A. 7780, UT Tue Apr 21 at 0300, `Freedom Synergy Radio` opening despite absence from WRMI skeds, S8/9+10 into Georgia SDR, // much stronger 5850 (Glenn Hauser, OK, WOR)

** U S A. 5935, Apr 16 at 0446, WWCR-2 is on with DGS, missing earlier; still missing before 1500 on 7490, after 1500 on 12160. Still

no 12160 at 1639, 1722. WWCR-2 sked is: 00-12 5935, 12-15 7490, 15-20 12160, 20-24 9350, with 24/7 programming (Glenn Hauser, OK, WOR)

** U S A. 13845, April 17 at 2204, this WWCR with PMS is S9+20 but with constant squeal, like also on 4840 (Glenn Hauser, OK, WOR)

** U S A. 4840, April 20 at 0512, or 0502? WWCR with squeal, gospel huxter giving affiliate sked info in detail, now about WWCR on 3215, 1-2 pm CST = 2-3 pm EST! Which has been off the air for years, and never on air in local afternoon! How can anyone believe their theology when they make such gross errors about own broadcasts? website as mygospelhighwayeleven.com from Church of Lord Jesus Christ of Apostolic Faith, P O Box 5557? Philadelphia PA 19143. Broad search on name leads to https://www.tcljc.com/broadcast.htm but no SW stations, and slightly different address. WWCR sked shows it Mondays only at 05-06, another ministry Sat/Sun, and Worldwide Country Radio Tue-Fri. If spelt mygospelhighway11.com there is a website, a ``station`` with no frequencies of its own, lots of g.h. within but not this particular program now. Logo for Highway 11 is an Interstate-like shield. The real I-11 is only 50+ miles in NV & AZ with plans for expansion (Glenn Hauser, OK, WOR)

** U S A. 660, April 20 at 0200, ending `RM World Travel` show from SSI radio network, KSKY ID and SRN news. Haven`t heard in a while vs KTNN or XEFZ. KSKY is U4 7200/600 watts in Balch Springs -- what an ugly name -- or address in Irving TX, i.e. The Metroplex. There is no SSI network on page 260 of NRC AM Log, nor searching KSKY website. Nor is it the SSI of Social Security. Rudy Maxa is involved with the show: https://660amtheanswer.com/radioshow/rm-world-travel-connection KSKY has a major lobe thisaway, in fact Enid barely within the daytime distant contour (Glenn Hauser, OK, WOR)

** U S A. Mike Cooper replies about KSKY: ``Regarding your 660, April 20 at 0200, ending `RM World Travel` show: The page you reference at 660amtheanswer.com promotes "Salem News Channel Today" news items. At the bottom of the page is a link to "Salem Surround," so perhaps Salem Surround Inc. makes SSI. Page also mentions Salem Interactive Media, popups refer to Salem Media. No definitive answer here, but I suspect the first S in SSI stands (or sits) for Salem. mc`` (Glenn Hauser, WOR)

** U S A. 830 kHz, Apr 22 at 0650 UT, dead air from WCCO, S9+30 signal = 840 WHAS but JBM, or an understation. 0651 WCCO resumes full modulation (Glenn Hauser, OK, WOR)

** U S A. 960, April 17 at 0658 UT, YL mentioning KMA several times, 0700 Shenandoah ID with FM 99.1 which is really in Clarinda, and ABC News. Is U2 5/5 kW. Dominant in the absence of local KGWA. Night pattern has lobe toward SSW. Not as strong as 920 KYFR Shenandoah, only 2.5 kW night, but major lobe thisaway. What else can I get on 960? In previous outages or deadairs have logged WERC, KZIM, KGKL, CFAC (Glenn Hauser, OK, WOR)

** U S A. 1200 kHz, Apr 22 at 0655, gospel huxtering atop WOAI, mentions myfaithradio.com which is KFNW West Fargo ND, but website HQ is St Paul MN. ** UZBEKISTAN. 9590, Apr 19 at 0010, S7/S8 JBA signal, supposedly new BBCWS relay via Tashkent at 00-02 aimed SE, but being heard well in eastern NAm. Not here, tonight (Glenn Hauser, OK, WOR)

** VANUATU. 7260, Apr 16 at 0628, S6/S8 talk sounds more English than Bislama; R. Vanuatu is regular here. Ron Howard has been corresponding with them about distorted audio, also on 9960 earlier, but now fixed (Glenn Hauser, OK, WORLD OF RADIO 2343)

** VENEZUELA. 4940, Apr 17 at 0630, no signal from Estación 4940, nor last night? Normally audible overnight. Need further daypart chex whether totally gone. At 1530 & 1840 chex into new HK4RAU SDR in Antioguia, nothing either. Not sure whether this can ordinarily hear it daytimely, but nothing closer. Bonaire offline as usual (Glenn Hauser, OK, WOR)

** VENEZUELA. 4940, April 18 at 0143, still no signal from Estación 4940 (Glenn Hauser, OK, WOR)

** VENEZUELA. 4940, April 20 at 0147, S9 signal = noise level, presumed Estación 4940 reactivated. Also at 0606 music JBA S9/+10. Ron Howard was also getting it:

``Hi Glenn - On April 20, from 0033 till tuned-out at 0105 UT, heard Estación 4940, via the KSDR at Bonaire; fairly good reception; variety of music; a religious song in English, EZL instrumental music, ID [Can you please translate? Thanks. Ron], more EZL
instrumental music ("Born Free," etc.) and indigenous music/singing. Active again after a short absence. My remote audio (ID and music) - https://app.box.com/s/4bin4g62pd7i325kp2yz4m3o3gwtq0an

It says: ``En Europa, Norteamérica, y el Caribe, llegamos con nuestra programación en 4940 kHz de onda corta. Somos Estación Cuatro Mil Novecientos Cuarenta. Un saludo a nuestros oyentes en Venezuela, América y en el mundo, Estación 4940`` ``In Europe, North America and the Caribbean, our programming arrives on 4940 kHz shortwave. We are Station Four Thousand, Nine Hundred and Forty. Greetings to our listeners in Venezuela, America and the world, Station 4940`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1450 kHz, April 21 at 0700 UT, ID mentions ``51GY``, into Fox ``news``. Should be easy to correlate a translator call, W251GY or K251GY with a 1450 station. That would be on 98.1. Sorting WTFDA FM DB for any relays of a 1450, no hits. NRC AM Log, visually searching all ~164 entries on 1450, the only 98.1 hit is a Spanish station in MA. However, I notice that 1450 KSIW Woodward OK has a relay on K251CM. Maybe referring to some other Sports Animal outlet in OK, but still no bingos. I might have misheard the partial xltr call; but nothing in listings even fuzzily similar (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 4885, re my unID carrier, here`s a possible source tho

UNIDENTIFIED. 6910 LSB, April 20 at 0126, 2-way in Spanish, commonly dismissed by pirate monitors as ``peskies``, but has anyone ever identified any of these, native speakers at least gleaning locations? (Glenn Hauser, OK, WOR)
